1972 ANNUAL INDEX ELECTRONICS & COMMUNICATIONS ABSTRACTS JOURNAL

CAMBRIDGE SCIENTIFIC ABSTRACTS, INC.

RIVERDALE, MARYLAND NEW YORK CITY

SUBJECT INDEX

A

Abberation compensation in continuous wave lasers, techniques for calculation of thermal lens ... 37913
Abberation analyser, pupil-scan ... 44035
Abberations of ionic microanalyzers ... 38783
Absorption, gas laser with nonlinear ... 41054
Absorption, measurements of ... 37547
Absorption coefficient for carbon dioxide laser ... 41067
Absorption in deformed solids, devices for studying light ... 49210
Absorption in triphenylmethane dyes, saturable ... 47349
Absorption line profile of noise radiation ... 43578
Absorption of radio waves in the troposphere ... 38280
Absorption rates of ULF modes ... 45598
Absorption spectra enhancement by dye laser quenching ... 37865
Absorption spectra of molten salt, spectrophotometers for ... 48532
Absorption wave propagation of laser radiation, thermal conductivity effect on ... 41010
Abstracting for writer ... 43024
AC circuit demonstration, low frequency ... 47031
AC line changes, response to ... 37745
AC motors, commutatorless ... 45934
AC power supplies, ultra-stable ... 45841
Accelerated life test data, analysis of ... 45953
Accelerated life test data, graphical analysis of ... 44055
Accelerated life testing ... 34983
Accelerating cavities, mode damping in NAL main ring ... 38553
Accelerating structure, variable energy ... 38583
Accelerating structures, temfperature changes in linac ... 48250
Acceleration:
Electron rings for heavy-ion ... 45799
Heavy ion ... 45801
Heavy ion beam ... 45831
Instrument for measuring angular ... 44001
Intense electron beam ... 45800
Acceleration cycle, digital control of bevatron ... 38580
Acceleration in static-field ERA ... 45812
Acceleration measurements, resolution properties of ... 38111
Acceleration measuring devices for power system control ... 46060
Acceleration of heavy ions, cyclotron combination for ... 38549
Acceleration of metal ions in cyclotrons ... 45809
Acceleration relays for power systems ... 37435
Accelerator applications, high performance klystrons for ... 38552
Accelerator as tool for cancer therapy research ... 40640
Accelerator concept, electron ring ... 38601
accelerator control room consolidation using linked computers ... 38570
Accelerator facility, transuranic ... 40313
Accelerator field measurements at high power ... 38551
Accelerator for charged ion ... 40321
Accelerator for neutron radiography, application of Van de Graaff ... 38586
Accelerator produced radiations in radiotherapy ... 37647
Accelerator project, two-mile ... 40317
Accelerator radiation system, linear ... 38605
Accelerator RF fields, feedforward control of ... 38568
Accelerator service, bar loaded waveguides for ... 38436
Acclerator studies, application of on-line computers to ... 38584
Accelerator systems for heavy ions ... 45814
Accelerator systems of waveguide synchrotrons ... 48230
Accelerator tubes, fabrication of ... 47126
Accelerator vacuum systems, computer control of Van De Graaff ... 38585
Accelerators:
Advances in particle ... 45746
Alignment techniques for NAL main ... 38562
Analysis of axisymmetrical magnetic fields for ... 38566
Beam current monitor for electron linear ... 38454
Beam emittance measurements on NAL ... 38593
Bending magnets of the NAL main ... 38513
Bremsstralung production of linear electron ... 37348
Central control system for NAL ... 38576
Collective ion ... 45811
Compact high-current electron beam ... 38603
Computer control system for ... 38569
Computer controlled particle ... 38579
control of NAL main ... 38512
Control panels for computer control systems for ... 38572
Cybernetic ... 38555
Design aspects of MIT-LNs ... 38595
Dynamitron ... 37351,37337
Effects of sextuple fields on slow extraction in ... 38567
Electron beam broadening of linear ... 40300
Electron beam switching pulse generator for ... 40316
Electrostatic ... 37339,37336
Electrostatic ion ... 37338
Filament magnetic fields in electron guns of electron linear ... 48235
Grounded monitor for high voltage ... 45742
Hardware for high-energy electron-ring ... 38591
Heavy ion ... 45826,40318
High-current low-impedance ... 45745
High-current induction linear ... 38598
High intensity phenomena observed in ... 38627
Highly phase-stable RF power circuits for linear ... 38596
Initial performance of the NAL linear ... 38652
Injection into electron linear ... 38590
Injection study of NAL main ... 38550
Ion sources for ... 37340
Limiting current in linear ... 40322
Linear electron ... 38589
Longitudinal beam dynamics in high energy proton linear ... 38606
Magnet focusing in electron linear ... 38592
Multiplexed control system for NAL main ... 38574
Neutron production form electron ... 44277
Neutron spectra in side shielding of large particle ... 38582
Nuclear ... 37332
Nuclear particle ... 45875
Operator's console for LAMPF ... 38573
Power supply system of NAL main ... 38512
Preinjector for linear ... 37329
Princeton particle ... 45801
Pulsed-beam techniques used with ... 37328
Quadrupole magnets of the NAL main ... 38495
Radial striations in coaxial plasma ... 37335
Response of NAL main ... 38512
RF cavity stability with feedback control in circular ... 38441
RF control system for NAL ... 38575
Safety systems for ... 38425
Shielding of linear electron ... 37348
Soviet conference on charged-particle ... 45837
Status of the 500 GeV ... 38556
Superconducting heavy ion linear ... 45817
Superconducting linear ... 37342,37343, ... 37345,37350, ... 37346
Superconducting linear electron ... 37347
Testing charged-particle ... 45762
Three-stage Van de Graaff ... 37341
Transients in ... 37334
Two stage isochronous ... 40332
Accelerators for heavy ions, linear ... 38611
Accelerators with long duty factor, electron linear ... 38594
Accelerometer isolator ... 46661
Accelerometer systems, triaxial ... 48249
Accelerometers, damping piezoelectric ... 48507
Accelerometers, optimum damping for ... 48248
Accelerometers for seismology studies, broad band ... 46379
Accelerometers in electronic double integrator circuits ... 49026
Acceleration of deutrons of the dubna synchrophasotron ... 38614
Acceleration of heavy ions, trends in the U.S. for ... 38427
Acceleration of heavy ions to high energies ... 38473
Accessibility of queuing systems ... 39852
Accumulation of deviations, theory of ... 48584
Accumulators, thermal modes of ... 41229
Achromatic microscopes, three component ... 44492
Acid-base disorders, computer applications in ... 48839
Acoustic amplification ... 37975
Acoustic analysis of deaf speech ... 42297
Acoustic-beam profiles in surface-wave filters ... 43530
Acoustic channels, transmitter-receiver optimization for ... 39732
Acoustic communications pulse position modulation ... 38092
Acoustic data reduction for marine radar ... 41492
Acoustic delay devices, discriminator design uses ... 39840
Acoustic delay lines, microwave ... 44992
Acoustic demand on large-room offices ... 43014
Acoustic devices for instrumentation systems, microwave ... 46375
Acoustic energy source, sea change in underwater ... 49269
Acoustic equipments, statistical analysis ... 42096
Acoustic filters, UHF multilayer ... 46990
Acoustic holography, quantitative applications of ... 48781
Acoustic imaging ... 49313
Acoustic imaging sensors ... 49650
Acoustic intensity effects on maammalian nervous systems ... 37626

SUBJECT INDEX

Acoustic linear arrays, modulation scanning applied to....38839
Acoustic measurements, data acquisition for underwater....37541
Acoustic microwave device....43531
Acoustic microwave devices....41698, 41710
Acoustic mode transformers, paramagnetic....45005
Acoustic-optic ultrasonic devices....44971
Acousto-optical light deflectors....44809,44813
Acoustic oscillations, resonant....48500
Acoustic pebbles, transponding....49306
Acoustic resonantors, end impedance effects on natural frequencies of....49638
Acoustic response, standardization of....41454
Acoustic resonant interferometer, swept frequency....43997
Acoustic signal analysis....47907
Acoustic signals, coherence of....37542
Acoustic signals, fading of....37542
Acoustic signature classification techniques....40006
Acoustic signature detection....40006
Acoustic studies, microwave....46371
Acoustic-surface-wave bandpass filters....49366
Acoustic surface-wave convolution $LiNbO_3$....45002
Acoustic surface wave devices....37798
Acoustic-surface-wave devices, broadband bulk-wave cancellation in....49365
Acoustic-surface-wave devices, signal processing in....38335
Acoustic-surface-wve multistrip coupler....38322
Acoustic surface wave research....44974
Acoustic surface wave sequence generator/correlator....47068
Acoustic surface-wave transducers....44985,44984
Acoustic surface waves....43357,47950
Acoustic surface waves, broadband reflector....38338
Acoustic surface waves, measurements of impulse....46374
Acoustic surface waves on isopaustic glass....39455
Acoustic techniques for estimating fish abundance....46890
Acoustic transduceers, deep-sea systems for evaluating....49726
Acoustic-wave devices, nonlinear interactions in....49315
Acoustic-wave propagation, high-order finite-element analysis of....48135
Acoustic wave technology....45414
Acoustic waves, generation of....40027
Acoustic waves, hybrid computers for atmospheric....48919
Acoustic waves in crystals, measurement of temperature dependence of attenuation of 43994
Acoustic waves in piezoelectric semiconductors, power flow theory for....39488
Acoustic waves in solids, interactions with electromagnetic waves....38266
Acoustic waves used in electronic warfare....40630
Acoustical fields of rods, measurements of....49314
Acoustical holography....42095
Aco ustical holography in biomedical imaging....48783
Acoustical noise, lamp....42591
Acoustical particle counters....49702
Acoustical surface deflection of electromagnetic beams from guides....43451
Acoustical systems, high frequency....47422
Acoustical waveforms, speech analysis based on....38212
Acoustics....42130
Acoustics for music majors....47772
Acoustics of multitrack recording studios....39940
Acoustics Strive for Commercial Feasibility....49311
Acoustoelectric Devices....40858
Acousto-Electric Devices, Uniaxial Pressure effects ib ZnO....49655
Acousto-Electric Oscillators, Characteristics of....40807
Acousto-Optic Deflection Access, Holographic memory with....41110
Acousto-Optic Effect Suppression....44618
Acousto-Optic Light Filters....44621
Acousto-optical Deflections in thin films....40255
Acousto-Optical Devices, Materials for....44617
Acousto-Optical Extraction of Laser Power....41098
Acousto-optical modulation, mode conversion effects in....42770
Acousto-Optical modulators, resonant self-pulsing....44805
Acoustical hologram, images improving of....44139
Active Circuits, Synthesis of....47008
Active-filter transmission functions, approximation theory of....39086
Active Filters, transfer functions for....39079
Active network synthesis....46951
Active networks, equivalent of RC....44332
Active uptake, apparatus for measurement of....49100
Actuator for high radiation environment....38477
Ad conductor cathodes....37827
Adaptive algorithms in RF antenna arrays....43621
Adaptive antenna arrays, source location with 37273
Adaptive array, performance of....47890
Adaptive array antennas, envelope limiting in 37269
Adaptive array processing, linearly constrained....47894
Adaptive Behavior, axioms for....47673
Adaptive block quantization, image coding by....41542
Adaptive control, point estimation in....46504
Adaptive control systems....42211,42216
Adaptive decision feedback equalizers....38090
Adaptive dalta modulator for telephony....40106
Adaptive forecasting of hourly loads....37451
Adaptive prediction, voice digitizer employing....41528
Adaptive recognition of signals....38071
Adaptive systems....38052
Adaptive systems, frequency response in searchless....46581
Adaptive systems, hyperstability conditions for....46502
Adaptive systems, synthesis by Lyapunov's direct method of....48664
Adaptive systems with stabilization of dynamic characteristics....48571
Admittance characteristics of junction diodes....41239
Admittance meters, wide-band....43961
Admittance of BARITTdiodes, small-signal..49440
Admittance of MOS devices with interface charge inhomogeneities....49439
Admittance of slot antennas....41784,41786
Admittance properties of semiconductor-insulator-semiconductor diodes....49453
Adsorption pump, helium....41171
Advertising, communications technological advances for....47625
Aerial arrays, minimum radiation over a given range of angles for directional....38387
Aerial mappers for scanning undeveloped lands....42312
Aerial photographic instrumentation systems for traffic flow studies....49228
Aerial, pyramical horn....41286
Aerial radiation pattern measurements, systems for....48176
Aeronautical engineering....42226
Aeronautical mobile service, application of space techniques....38918
Aerospace avionics, control systems for....48696
Aerospace computers....46645,46648,46649,46650 46651
Aerospace instrumentation for biomedical problems....42243
Aerospace metarials information center....40620
Aerospace propulsion....42057
Aerospace research programs, instrumentation for....48723
Aerospace surveillance....46639
Aerospace technology, reports on....49911
Aerospace vehicle guidance systems....46613
Aerospace vehicles, electric power processing for....48695
Agar-agar chambers for electromagnetic wave studies....48144
Aging of epoxy resin insulations....48315
Air, concentration of radioiodine in....42301
Air conditioning with semiconductors, solar..43948
Air gap fields, AC corona inception voltage in nonuniform....458
Air gaps, current pulse distribution in....41
Air gaps, switching surge flashover characteristics of....37
Air-ground communication systems....47
Air pollution control systems....388
Air pollution effects on electrical components. 42
Air spark gaps, breakdown of inhomogeneous....481
Air temperature measurement, error in....420
Air-to-subsurface communications....481
Air Traffic Control:
Ait traffic control....38904,41497,429
Advances in....399
Balloon-aircraft test program for....414
Beacon systems....453
Communication analysis....497
Radar systems....478
systems...44180,44181,46631,46638,46652,4665 414
towers....4222
Airborne antennas....372
Airborna collision aviodance....4538
Airborne computer equipment for aircraft....4147
Airborne dust, electrostatic precipitation of...4088
Airborne Hadamard-transform spectrometers.4870
Airborne imagery, real-time motion desmearing of....4869
Airbus automatic pilot....3818
Aircraft:
Automatic sighting devices for....4872
Computers for control of tactical....4660
Eauipment....46641,4664
Flying qualities....4664
Ground operations simulation....4222
Low frequency scattering from....4971
Aircraft displays, V/STOL....4872
Aircraft electronic landing systems, all weather....3817
Aircraft for earth resource observations....4231
Aircraft guidance systems....4661
Aircraft instrument landing system....4147
Aircraft locating with distance measuring equipment....38191
Aircraft midair collisions, systems for avoiding....49711
Aircraft navigation....47837
Aircraft navigation, phase estimation receiver for....39962
Aircraft navigational aids, range measurements from....37615
Aircraft satellite communications, antennas for....45704
Aircraft test vehicles, antennas for calibrating.45735
Aircraft-tracking systems for calibrating instrument landing system, automatic...37616
Aizerman conjectures, verification of....46549
Alarm circuits for indicating failure in redundant power supplies....48421
Alarm signal devices....49653
Alarm system evaluation....41367
Alarm units, photoelectric....49206
Albert-Synge antenna equation, algorithmic..43589
Algebra, directed cotrees formulated in Wang's....48974
Algebra of structural numbers to analysis of electronic linear systems, application of....40698
Algebraic riccati equation for single-input systems....44046
Algorithm for inners, computational....48602
Algorithm for solving linear problems concerning mine ventilating networks....48667
Algorithmization of large systems....48623,48624
Algorithms, fixed-point smoothing....49878
Algorithms, partial fraction....46543
Algorithms, simplified irreducible realization.48600
Algorithms for:
Circuit analysis, computer....48924
Formation of loop admittance matrices....48369
Synthesis of relay devices....49349
Synthesizing economic data communication networks....49553
Temperature calculations of devices....48975

Wire routing problems, suboptimal.....48982
gorithms in digital regulator systems, regulation.....48657
gorithms in identifying pulse transfer functions, regularizing.....48573
gorithms in system identification, stochastic approximation.....48619
gnment techniques for the NAL Main accelerator.....38562
lografts, low temperature treatment in joint surface.....44278
nico magnet materials in electrical motors and generators.....48284
pha Counters, Dual-range.....46882
pha-meter design considerations.....48471
pha particle radiation spectrometers.....43928
pha ray activity meter, potential.....40944
pha spectrometer systems.....46281

lphanumeric displays, solid state programmable.....42529
lternator transient reactances from flux plots, waterwheel.....48292
lternators, design optimization of aerospace homopolar inductor.....45940
lternators, rotating rectifier.....45891
lternators, time-constant modification of....37378
ltimeter, radar.....40623
ltimeters, average return pulse form and bias for radar.....49713
ltimetry using ocean backscatter, satellite...43478
M correlation systems 49741
M pulses, spectrum prediction technique for.....38091
M waves in magnetoplasmas.....37201

metropia, high refractive index glasses of low dispersion.....44248
mmeters, electronic zero resistance.....42061
mpacities for cables.....37416
mplification, acoustic.....37975
mplification, analysis of.....42409
mplification cross section.....42455
mplification cross section, measurement of..41024
mplification in semiconductor bulk effect devices.....37958
mplification in semiconductor plasma, wave.....40171
mplification in TEA CO_2 lasers, time-delayed.....44669
mplification magnetic sensors, differential..49682
mplification of electromagnetic waves, superheterodyne.....40141
mplification of electromagnetic waves.....45657
mplification of electromagnetic waves in semiconductors.....40162
mplified magnetostatic schos.....49753
mplifier active filters for minimum open-loop gain sensitivity.....40749
mplifier circuits, drift compensated.....44382
mplifier devices for automatic control circuits.....49017
mplifier diode structures, TRAPATT.....39575
mplifier-filters, low sensitivity RC....42390,42402
mplifier for beam profile monitors.....40301
mplifier for color television, mixer-keyer....39179
mplifier for precise spectrometry under large loads.....43975
mplifier gain, sensitivity to changes in.....48954
mplifier module with solid-state pump sources, integrated parametric.....37756
mplifier performance, noise effects on.....42420
mplifier power, increasing.....49013
mplifier protection.....44363
mplifier realization of unitor concept, operational.....40783
mplifier rolloff characteristics.....46899
mplifier synthesis program, high frequency..42419
Amplifiers:
Amplifiers.....44361,44366
Analog memories in magnetic.....49377
Analog signal applications of operational...39180
Application to chemical kinetics of solid-state logarithmic.....37753
Beam buildup in dematron.....37325
Bistable noise in operational.....40780
Broad-band differential.....42433
Broad-band HF linear.....37754
Broad-band parametric.....42429
Color video processing.....42416
Common-base broadband.....45537
Computer-aided design of parametric.....42418
Computer aided evaluation of.....40776
Computer synthesis of tunnel.....49014
Core noise for self-saturating magnetic.....39186
Crossed-field travelling-wave.....46131
Current differencing single-supply operational.....40791
